

Aquilon® air micromotors

Aquilon® air micromotors

Aquilon air micromotors offer 100% Swiss Made quality at a very attractive price. They are provided with a ceramic stator which makes maintenance extremely easy and gives them a very long service life. Forward and reverse operation and variable speed from 5000 to 20,000 rpm. Air pressure 3 bar. Quick rotating connection on Unifix 3- or 4-hole coupling. Recommended silicone hose: 4VLM with fixed connector.

Aquilon® 830 (internal spray)

Unifix couplings

Speed and manoeuvrability guaranteed!
All the benefits of quick connection and easy rotation through 360°.
Available in 3- and 4-hole versions.

Bien-Air Dental SA – Your trusted partner

Quality first

Determined to meet its customers' needs, the company has always focused its efforts on improving reliability. Modern machining techniques and stringent controls at each stage of manufacturing and assembly are the key to impeccable product quality, and products are marketed by a global distribution network. Management, supported by highly qualified personnel, has applied this strict policy in every department. And the policy has paid off: Bien-Air Dental SA is now certified compliant with ISO 9001/EN 46001 standards and EEC directive 93/42.

Global Service

Bien-Air Group's eight subsidiaries in Europe, the United States and Asia are the backbone of a well-oiled distribution network. Local inventory ensures very short delivery times. Constantly attentive to the market and its representatives, the company is able to design and thus offer instruments and equipment meeting the specific requirements of each customer. More than 130 technicians worldwide provide fast, efficient, on the spot customer service. Their advice and personalised assistance, plus remote investigation and diagnosis has already helped boost the efficiency of our customers.
